## HARDY LILIES

## DELIVERIES FROM LATE FALL ON

Plant bulbs immediately on arrival in a well drained soil, giving them plenty of opportunity for root action. The containers should then be set on a raised platform in a cool, semi-dark place, affording perfect drainage. When flower buds appear, the plants will then readily submit to forcing. They may also be planted out of doors for flowering in June and early July and later.

MINIMUM ORDER 100 BULBS OF A VARIETY

LILIUM REGALE  
(OREGON GROWN)

One of the finest and most beautiful of all Lilies, and certainly one of the easiest to grow, thriving in a great variety of soils. Slender stems, crowned with several large, funnel-shaped flowers variably wine-colored without, pure white on the face, clear yellow within the tube; anthers golden. Vigorous grower, attaining sometimes as high as twenty flowers or even more on a single item. Stem rooting.
